

Flex Pass Subscription

A Flex Pass Subscription is a block of tickets that can be used for one or multiple events and performances during a specified season.

How it works

Flex Pass Subscriptions include a fixed amount of tickets set up by the promoter. It can be configured to include or exclude certain event types, dates, and tickets with the ability to restrict by price range or section name. Flex Passes may be purchased online or at the box office and can either be used once or over a span of multiple events and performances. During the checkout process, patrons use their subscription code to redeem tickets online or at the box office. Depending on the set up of the venue, this subscription can be applied to both general admission or assigned seating events.

If you'd like your patrons to choose a set number of events from a list, a Pick A Show may be a better subscription type.

Choice Flexibility

Patrons may use tickets towards one or multiple events.

Set Restrictions

Restrict ticket buying on sections and price ranges for each event.

For All Events

May be automatically applied to Assigned Seating or General Admission events.

Easy And Simple

Setting up and using Flex Passes is one of the easiest ways to offer multi-ticket purchase discounts.

Transfer Seasons

Promoters have the option to allow Flex Pass balances to transfer over to a new season.
